## DETAILED ACTION

### *Drawings*

The drawings filed on July 29<sup>th</sup>, 2003, are accepted by the Examiner.

### *Response to Arguments*

Applicant's arguments, see the amendment, pages 4-5, filed December 27<sup>th</sup>, 2005, with respect to common ownership of the reference used as prior art have been fully considered and are persuasive. The rejection of claims 1-9 has been withdrawn.

### *Examiner's Reasons for Allowance*

Claims 1-9 are allowed over the prior art of record for the reasons set forth in the amendment filed December 27<sup>th</sup>, 2005, on pages 4-5 and for the reasons set forth below.

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a depolarizer comprising a third birefringent plate having a thickness which continuously changes in a direction of 45 degree with respect to an optical axis of the third birefringent plate, wherein a second birefringent plate is stuck on the third birefringent plate so that a reduction direction of the thickness of the second birefringent plate and a reduction direction of the thickness of the third birefringent plate are opposite each other, in combination with the rest of the limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
